

FAQ

Frequently Asked Questions about Opioid Prescribing

Opioid Crisis Statistics

- In 2016, East Baton Rouge Parish **overdose deaths exceeded motor vehicle deaths** and equaled homicide deaths
- Sales of prescription opioids in the U.S. **quadrupled** from 1999-2014, but there was no overall change in pain reported by Americans
- In 2013, **Louisiana ranked first in opioid prescribing** according to the CDC Morbidity and Mortality Weekly Report
- **4.3 million** Americans are engaged in non-medical use of prescription opioids
- According to the NIH, **80%** of heroin users started out misusing prescription opioids

Louisiana Medicaid Opioid Prescription Policy

Date	Who?	What?
Jan 10, 2017	Patients in Fee for Service (FFS)	<ul style="list-style-type: none"> Medicaid Opioid 15 day quantity limits
March 22, 2017	Patients in Managed Care Organizations: Acute Pain	<ul style="list-style-type: none"> Implement 15 day quantity limit for opioid-naïve recipients
May 2017	Patients in FFS and Managed Care Organizations: Acute & Chronic Pain	<ul style="list-style-type: none"> Alert to notify providers of upcoming Morphine Equivalent Dosing (MED) at 120mg/day for all opioid prescriptions
July 2017	Patients in FFS & Managed Care Organizations: Acute Pain	<ul style="list-style-type: none"> 7 day quantity limit for opioid-naïve recipients or Morphine Equivalent Dosing (MED) at 120mg/day, whichever is less
July 2017	Patients in FFS & Managed Care Organizations: Chronic Pain	<ul style="list-style-type: none"> Morphine Equivalent Dosing (MED) at 120mg/day for all opioid prescriptions

Exclusions: Any patient with cancer, palliative care or terminal illness are excluded from the opioid limits .

Q&A

Q I am treating patients with cancer, terminal illness, and/or palliative care. Will this policy affect them?

A No. Patients with cancer, terminal illness and/or palliative care are exempt from the policy.

Q I have patients with chronic pain who I as a provider medically deemed to need longer therapy. Are there any options?

A Yes. Prescribers can submit a prior authorization (PA) to exceed the limit with appropriate medical justification.

Q I don't need more paperwork. With 5 MCOs, that makes 6 more pieces of paper fill out . Can you cut the "red tape"?

A Yes. FFS and the 5 MCOs will utilize one common Opioid Analgesic Treatment Worksheet to minimize "red tape" for providers with patients needing extended opioid therapy.

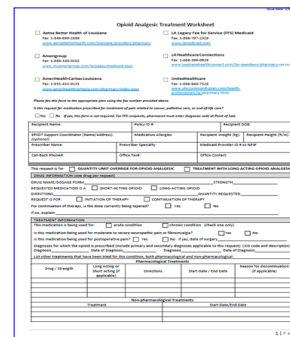

Q What steps are the *federal* government taking to combat the opioid epidemic and how might they affect me?

A The DEA announced that there would be a 25% decrease in amount of opioid medication that can be manufactured in the U.S., with Hydrocodone manufacturing reduced by 33%. Half of the opioid prescriptions written in Louisiana are Hydrocodone.
